

NOW HIRING

BUSINESS INTELLIGENCE ANALYST

#FARMERPOWER

Farmobile LLC is a growing AgTech startup passionate about helping farmers to collect, share and monetize their data for real-time visibility, better insights and revenue opportunities to strengthen farm families. Farmobile brings that mission to life with a culture founded on employee empowerment, mutual respect, collaboration and fun. Led by CEO Jason Tatge, Farmobile's team is 100% committed to organizing the industry by delivering never-before-seen technology to farmers while maintaining trust and transparency with customers. The team is full of rock stars, who work "hard and smart" to solve some of agriculture's biggest challenges. It is an amazing place to work. Join us!

DESCRIPTION

The Business Intelligence (BI) Analyst is an important role at Farmobile. This person works across the organization, gathering and synthesizing data, translating it into critical information and knowledge that can be used to make sound business decisions. The BI Analyst works closely with all teams to empower Farmobile's decision making.

RESPONSIBILITIES

- Identify and document new requirements via standard analysis techniques, such as process mapping, data collection facilitation and workflow analysis
- Work with the data team to gather data warehousing requirements
- Create and manage business intelligence visualizations, including standardized reporting and dashboarding through BI tools
- Manage master data and internal reporting environment, to include data sources and security
- Provide technical expertise on data mining, data cleansing, data patterns and warehouse consistencies
- Understand and address metadata standards
- Train end users on how to use BI tools
- Ability to analyze and extract data from multiple systems
- Understand and stay abreast of industry trends and tools for BI and data warehousing
- Establish and maintain relationships with external vendors as required

REQUIREMENTS & QUALIFICATIONS

- At least 3-5 years of BI, data analysis or related experience
- Experience working with technology teams to drive world-class results
- Solid organizational and time management skills, including strong attention to detail
- Experience working with ETL and BI Tools (Tableau preferred)
- Experience working with JIRA and Confluence project management tools preferred
- Excellent verbal and written communication skills
- Bachelor's degree

BENEFITS

- Collaborate with an incredibly talented team
- Innovate with big data in a dynamic, real-time environment
- Casual dress in a creative work environment
- Free lunch (and snacks and cookies and t-shirts...)

- Eligible for Farmobile's retirement savings plan and group health plans, including medical, dental, vision and other voluntary benefits
